Sustainability approach

The fund is managed in line with our sustainability approach for short duration bond funds which includes the management and integration of ESG risks, corporate governance and controversies. The implementation of this approach involves the application of values-based investment restrictions that have been set by CCLA to reflect the values and mission of the fund's unitholders. The restrictions that apply to the fund are set out in the scheme particulars.

These restrictions are applied in accordance with [Our values-based screening policy](#) (which also sets out how we consider the eligibility of third-party managed funds) and are implemented based upon data points selected by CCLA.

Sustainability metrics

The value based screenings that apply to this fund are set out [here](#).

If these restrictions were applied to the MSCI World Index, 8% of the index by weight (128 companies) would be excluded from investment.¹
